# ▶ North America's Largest Manufacturer of Stone Machinery

## INNOVATION & DESIGN

70+ years of experience, extensive R&D testing and a team of in-house engineers result in innovative, highly productive solutions.

## PROUD USA MANUFACTURER

Our machines are precision built in our state-of-the-art, vertically integrated manufacturing facility, located in Minnesota, USA.

## MACHINE & SOFTWARE TRAINING

Park makes it easy to master your machine with small class sizes, dedicated trainers, and flexible learning options.

## EXPERT INSTALLATION & FIELD SERVICE

Our team of Certified Field Techs provide complete installation of your new machine and set you up for long-term success. With quick dispatch times and preventative services like machine health checks, they help keep your equipment running at its best.

## LEGENDARY SERVICE

24/7 phone support, next-day parts and the industry's largest (and most helpful) service team make our machinery the lowest risk, highest peace of mind solutions.

## YOUR TRUSTED PARTNER

With nearly 20,000 machines built and over 5,000 customers, Park Industries goal is simple: set our customers up for long-term success.

# CUT PORCELAIN CONFIDENTLY WITH PARK INDUSTRIES

Our CNC sawing solutions are optimized for cutting porcelain and other ultracompact materials with precision and ease. With features designed specifically for porcelain and helpful tips, we can help you cut this trending material with confidence.

JAVELIN™ | SABERJET™ XP | VOYAGER™ XP | YUKON® II | CROSSCUT™ XP

# JAVELIN™

27HP MOTOR  
WITH VFD

BLADE & WATERJET  
MITERING

MAXIMUM TABLE  
COVERAGE & LARGEST  
MITER ENVELOPE

## KEY SPECS

- Arbor Motor: 27hp
- Mitering: 0-47° Blade, 0-58° Waterjet
- VFD RPM Range: 0-4,500
- Max Slab Size: 144" x 88"
- Auto Lubrication: Yes
- Table Options: Standard or Slab Loader

**SINGLE OR DOUBLE TABLE  
MODELS AVAILABLE**

## THE ONLY SAWJET THAT HITS EVERY TARGET

The JAVELIN CNC Sawjet's high production speeds, precise mitering accuracy, maximum table coverage, and operational ease have made it North America's sawjet of choice.

**ACCUCUT™ SYSTEM FOR UNMATCHED PRECISION**

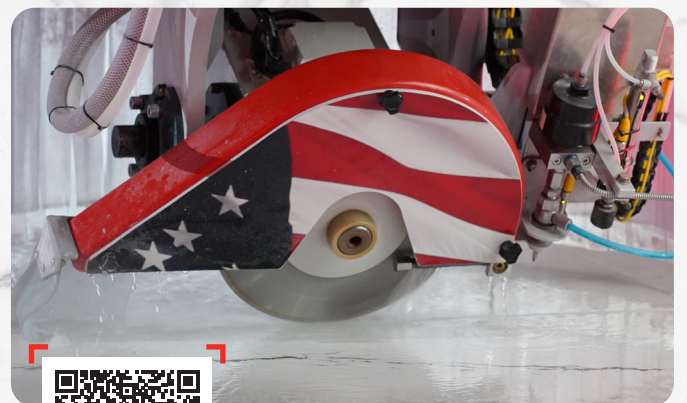

**DYNAMAX® WATERJET TECHNOLOGY**

**THREE-SIDED TABLE ACCESS**

**SMALLEST DOUBLE TABLE FOOTPRINT**

**EZ CAL WITH AUTOMATIC TOOL MEASUREMENT**

**PERIMETER FENCING AVAILABLE**

**SCAN TO LEARN MORE ABOUT THIS MACHINE**

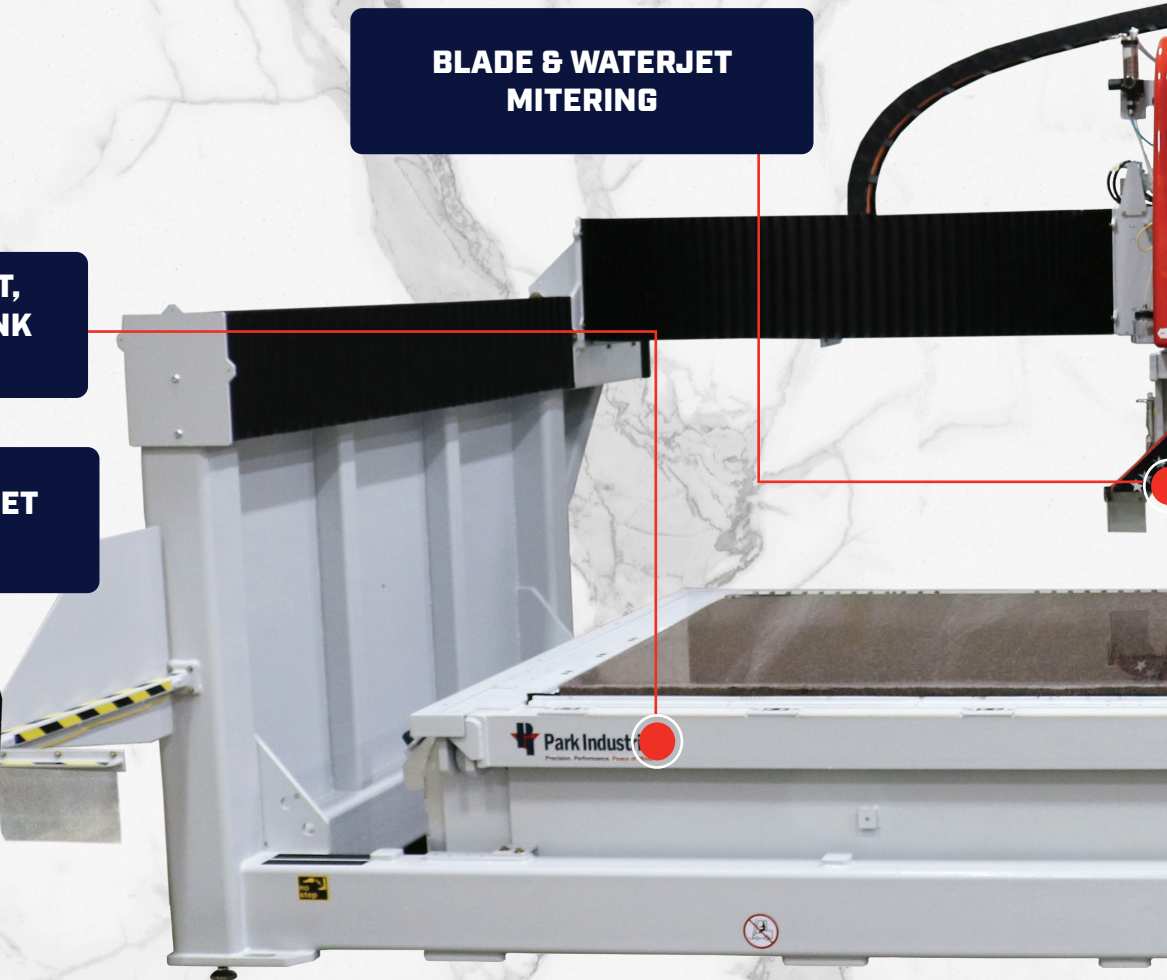

# SABER *jet*™ XP

BLADE & WATERJET  
MITERING

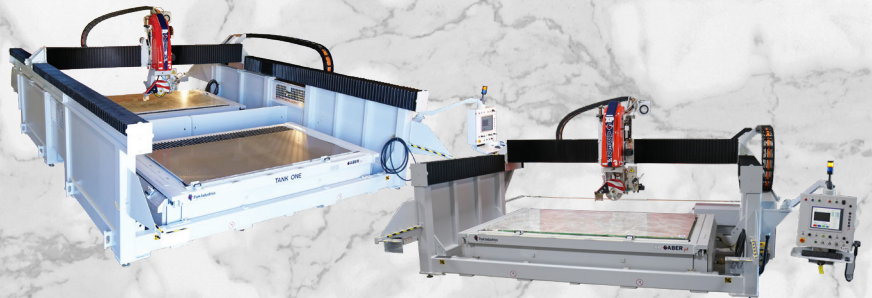

STANDARD, BALLAST,  
OR SLAB LOADER TANK  
OPTIONS

DYNAMAX® WATERJET  
TECHNOLOGY

## KEY SPECS

- Arbor Motor: 27hp
- Mitering: 0-47° Blade, 0-58° Waterjet
- VFD RPM Range: 1,200-2,500
- Max Slab Size: 144" x 84"
- Auto Lubrication: Optional
- Table Options: Standard, Slab Loader, or Ballast

SINGLE OR DOUBLE TABLE  
MODELS AVAILABLE

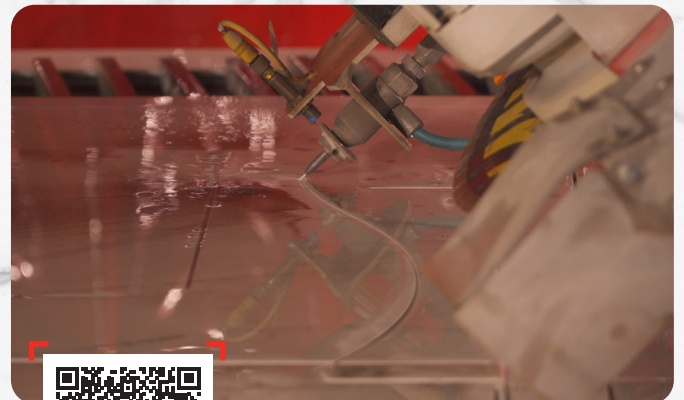

## POWER UP WITH XP

The SABERjet XP CNC Sawjet's high horsepower, mitring capabilities, flexible operation, and monoblock design provide big time production, with a more value-priced sawjet investment.

**27HP MOTOR  
WITH VFD**

**MANUAL CUTTING CAPABILITY  
WITH LASER GUIDE**

**MONOBLOCK, SINGLE  
STRUCTURE DESIGN**

# VOYAGER™ XP

**TIGHTCUT™ FOR HIGHER  
YIELD & LESS MILLING**

**INCREMENTAL ROUTER  
FOR CORING & MILLING**

**MONOBLOCK, SINGLE  
STRUCTURE DESIGN**

**MITERING, LEATHERING,  
FLUTING, & MORE  
VERSATILE CAPABILITIES**

## KEY SPECS

- Arbor Motor: 27hp
- Mitering: 0-47°
- VFD RPM Range: 1,000-6,000
- Max Slab Size: 144" x 84"
- Auto Lubrication: Optional
- Table: Hydraulic Tilt

**WITH TIGHTCUT**

**MINIMAL ROUTING**

NEARLY HALF THE MILLING TIME NEEDED

**WITHOUT TIGHTCUT**

**INCREASED ROUTING**

NEARLY DOUBLE THE MILLING TIME NEEDED

# 5-AXIS CNC SAW

## IT'S TIME FOR A NEW VOYAGE

Voyage into digital fabrication with the VOYAGER XP CNC Saw, a versatile 5-axis machine with 27hp sawing, incremental router capabilities, TightCut™ plunging, and more.

**27HP MOTOR WITH VFD**

**MANUAL CUTTING CAPABILITY WITH LASER GUIDE**

**HYDRAULIC TILT TABLE**

# YUKON® II

## BRIDGE SAW

### NORTH AMERICA'S MOST TRUSTED BRIDGE SAW

Simple, reliable, accurate – trust your sawing needs to the YUKON® II Bridge Saw as thousands of fabricators do.

#### KEY SPECS

- Arbor Motor: 20hp
- Mitering: 0-47°
- VFD RPM Range: 900-2,650
- Max Slab Size: 144" x 84"

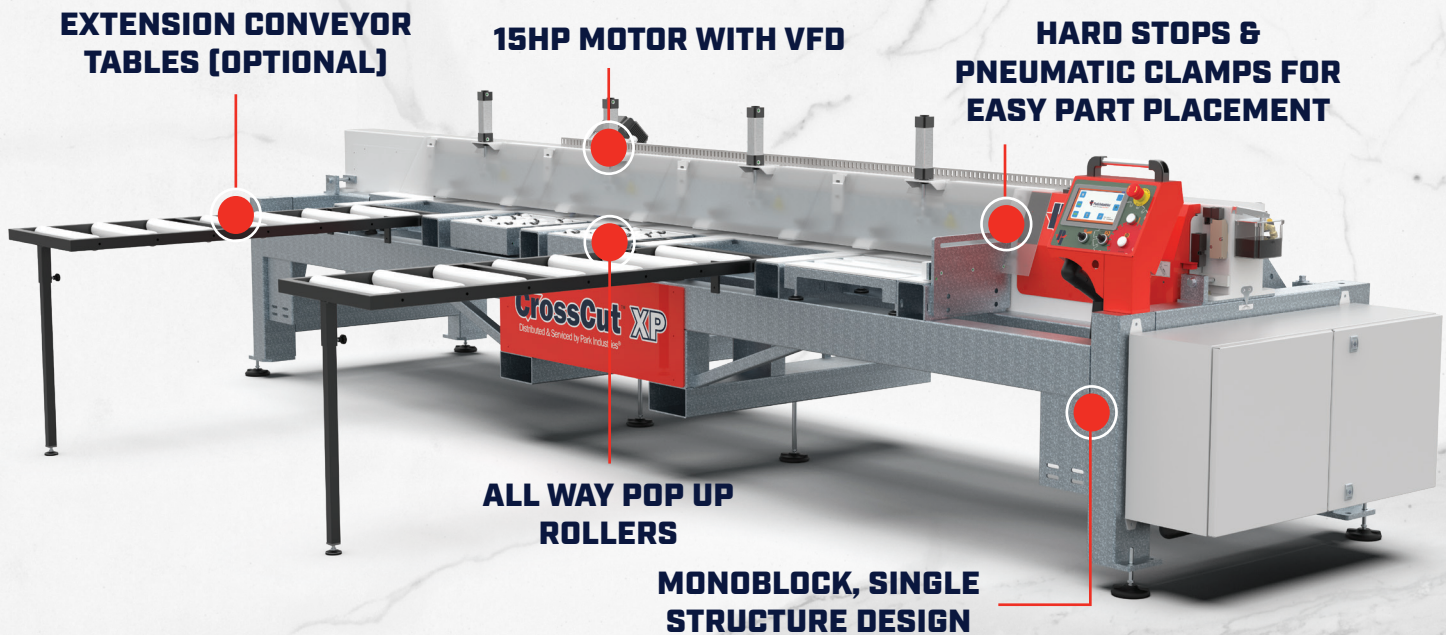

**SCAN TO LEARN MORE ABOUT THIS MACHINE**

# CrossCut™ XP

## MITER SAW

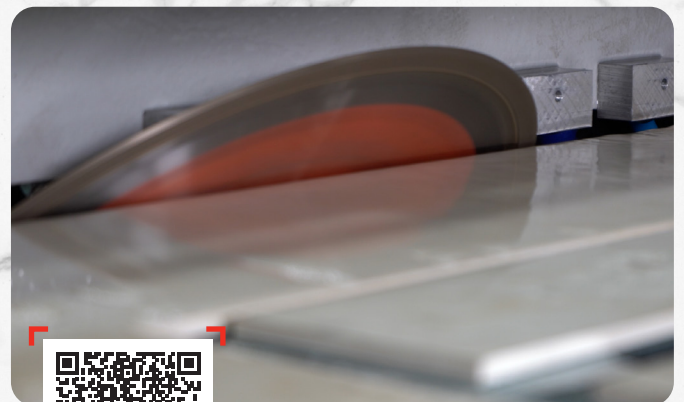

### MITER PERFECTION WITH EVERY CUT

Designed for one thing, and one thing only, the CrossCut™ XP Miter Saw delivers accurate miters with every cut. Cut flawless miters up to 55 inches per minute!

#### KEY SPECS

- Arbor Motor: 15hp
- Mitering: 45° (+/- 2°)
- VFD RPM Range: 0-3,600
- Max Part Length: 132.5"

# FASTBACK® II

**NINE SPINDLES FOR  
EXCEPTIONAL POLISH  
QUALITY ON ALL MATERIALS**

**HEAVY DUTY INFEED /  
OUTFEED CONVEYORS**

## KEY SPECS

- Edge Type: Flat with Chamfers
- Number of Spindles: 9
- Polishing Speed: 65"+ per minute
- Part Length: 16"-144"
- Part Width: Up to 96" (Standing up)

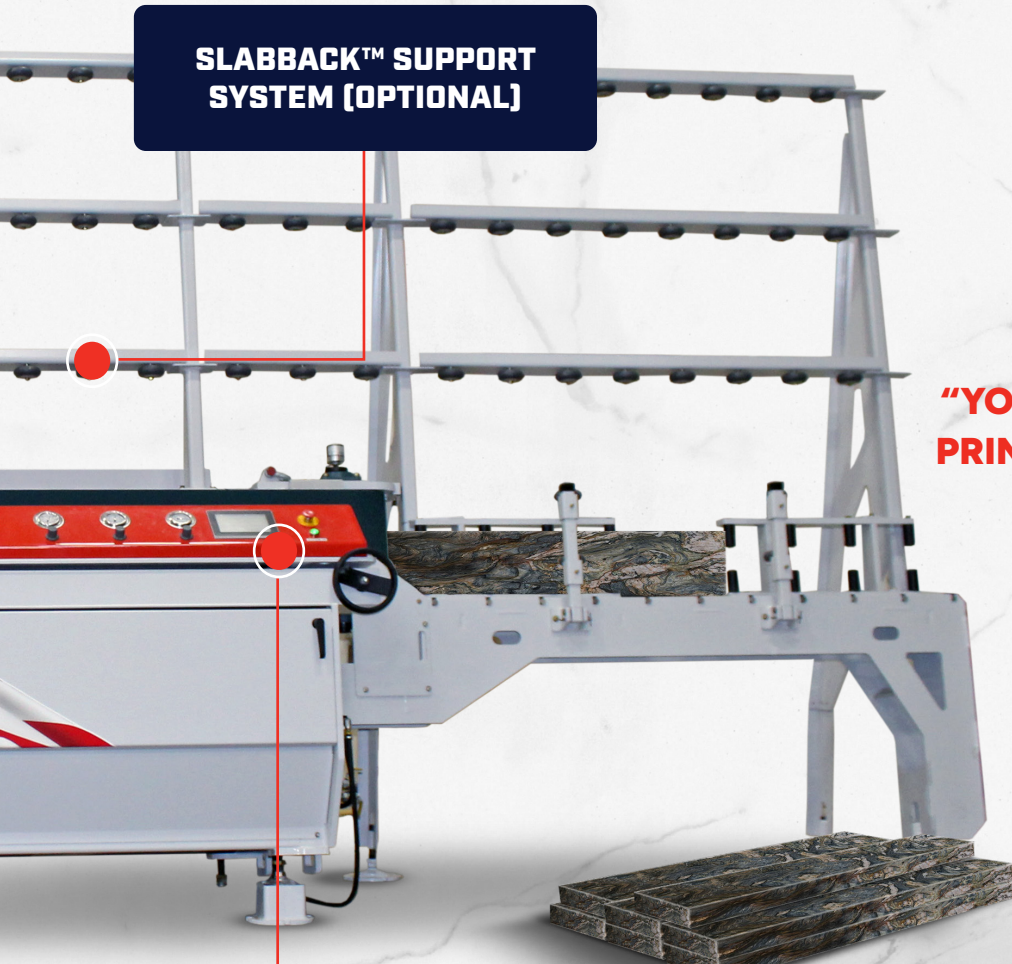

**AVAILABLE WITH OR  
WITHOUT SLABBACK™**

## **OPTIMAL, FLAT-EDGE PRODUCTION**

The FASTBACK II Flat-Edge Polisher edges, polishes and chamfers backsplash, vanities, and countertops in a single pass. Get exceptional, quality edges on all colors at a rate up to 65 IPM and pieces up to 96" tall with the SlabBACK Support System.

**SLABBACK™ SUPPORT SYSTEM (OPTIONAL)**

**“YOU PUT STONE IN ONE END AND IT PRINTS MONEY ON THE OTHER SIDE.”**

**SMARTEST FLAT EDGER IN INDUSTRY**

**EXCLUSIVE SPINDLE STAGGER**

ABOUT THIS MACHINE**

# alphacam

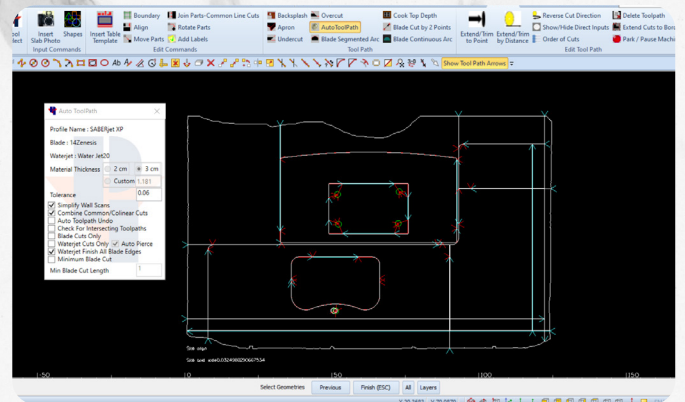

**PARK EZ**  
BUTTONS

Park Industries® makes CNC programming FAST and SIMPLE. Our machines pair Alphacam's world-class CAD software with our Park EZ™ Buttons to make tedious tasks a breeze.

## EZ BUTTONS KEY FEATURES

- Triple your programming capacity
- Less rework with reduced errors
- Quickly onboard new programmers
- Save 60% or more of programming time and clicks compared to other softwares
- Over 40 built-in Park EZ Buttons like Auto Toolpath and Ultracompact Automation

SlabSmith™ is a highly trusted and easy to use software that powers Park Industries photo stations from slab capture through slab properties to digital layout and slab inventory.

## SLABSMITH KEY FEATURES

- Digital slab creation
- Slab layout / veinmatching environment
- Stores all properties (size, defects, etc.) of all slabs / remnants
- Eliminate manual yard searches with live digital slab inventory

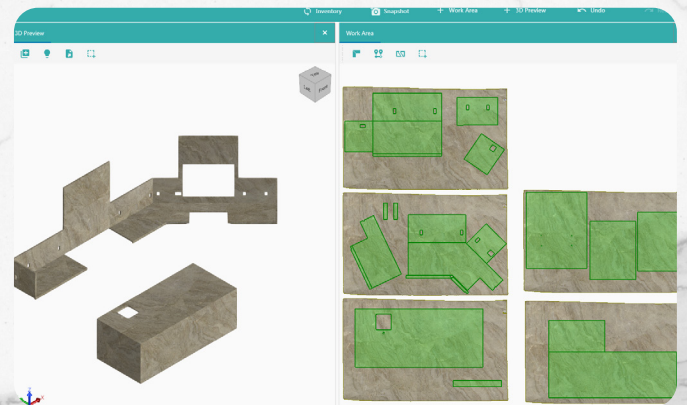

Capture everything with tMatch and Slab Inventory software, built exclusively for the SlabVision™ Scanner. These powerful tools redefine veinmatching & slab management, putting precision and efficiency at your fingertips.

### TMATCH KEY FEATURES:

- Powerful slab layout / veinmatching environment
- Exportable 3D Interactive layouts for customer approval
- Define remnants to be returned to inventory
- Creation of DXF cut files for CNC sawing

### SLAB INVENTORY KEY FEATURES:

- Exact area and unit counts of your slabs / remnants
- Stores all properties (size, defects, etc) of all slabs / remnants
- Eliminate manual yard searches with live digital slab inventory
- Real-time insights into your material usage and inventory

# TESTIMONIALS

"Park is the top machine partner in the industry. They stand behind their name, are family-owned, and they have a deep commitment to quality, USA Made machines all the way around. We have total Peace of Mind with Park behind us."

**LAURA GRANDLIENARD // ROCKIN'TERIORS**

*VOTED 2024 FABRICATOR OF THE YEAR*

"Park's service is impeccable. Simply unmatched in our industry. Park Industries® is not just an equipment manufacturer, they are a solution provider and a true business partner of ours."

**JOE DUSZKA // CAROLINA CUSTOM SURFACES**

*VOTED 2021 FABRICATOR OF THE YEAR*

"Our Park machines have more than tripled our production, reduced our labor, and eliminated overtime in our shop. I am so happy with them that I joke I get the urge to kiss my machines from Park Industries. They've changed our lives."

**HECTOR & YURI FRANCO // UNIQUE COUNTERTOPS**
